Report on AIBD's activities since the last AIBD General Conference in 2005

The past 12 months was a successful period for the Secretariat. AIBD enjoyed offering numerous activities to our members. What distinguished the past year with previous years are the many new initiatives we pursued over the past 12 months that made it a year full of joy and innovation.

Capacity Building

AIBD implemented 67 activities for 1362 broadcasters from 56 countries in 49 different subjects from 1st July 2005 to the end of June 2006. This includes 32 regional and 35 in-country activities, 391 training days, 6225 participants- days with an average of 5.8 days. 22 members and partners supported the abovementioned capacity building activities.

The **attached document** provides you a clear perspective of AIBD's achievement in capacity building for the past 12 months.

New initiatives in Training

➤ Distant Education

AIBD faces the challenge of a large geographic distance between the secretariat in Kuala Lumpur and its member countries. Therefore, the institute develops concepts to use Internet technologies in bridging the distant training and consultancy services to stakeholders in remote places. All Distant Education activities of AIBD are listed in the IBTC (Internet-based Training Community).

➤ AIBD Website

The AIBD website has been split into two parts. The administrative part describes the current projects and offers AIBD-specific information as usual. It is available under www.aibd.org.my The second part offers training and resources. It is the Internet-based Training Community (IBTC) for Broadcasting Development. The IBTC extends and incorporates the former DRIC project, which was established by AIBD in 1999. The address is ibtc.aibd.org.my The IBTC allows contributions and active involvement of the users.

➤ Certificate in Broadcast Journalism

AIBD and Help University College in Kuala Lumpur are jointly organizing a 3-month Course for a Joint Certificate in Broadcast Journalism. This activity is being held at the Help University from 7 August to 31st October 2006. This project would be the first of its kind as AIBD is experiencing such a 3-month course for the first time. Other partners in this project are Thomson Foundation, Cardiff University, Ohio University and the BBC.

The certificate course is specifically targeted to professionals in the Television News industry with less than 3 years experience. Additionally those who are in the field of journalism, public relations, media studies, marketing communication, broadcasting etc. can also sign up for the course. Graduates / Post-graduates in Mass Communication wanting to specialize in News and Current affairs are also eligible. The certificate course will give a firm theoretical and practical foundation in television news to meet accepted international standards.

AIBD in close partnership with the European Broadcasting Union (EBU) and other Asian and European partners will launch the following international Media Dialogues:

- The Asia Media Summit will be held in Asia on a yearly basis:

The 15th Strategic Plan Team Meeting, held on 31st May 2006, Kuala Lumpur

The Strategic plan Team came up with a number of constructive recommendations at its 15th Meeting in May 2006: Here are some of the recommendations.

- 1- The SPT endorsed the dates of the Asia Media Summit in 2007 from 29 - 31st May 2007 in Kuala Lumpur.
- 2- The SPT recommended inviting 4- 5 speakers per session for the next AMS in 2007. The SPT also recommended that one of the sessions could be conducted by a moderator with interactive discussion with all AMS participants and no specific speakers and panelists. This would enable more participants to express their views in a lively discussion.
- 3- The content of the next AMS 2007, which emerged from the outcome of the questionnaire that was circulated to all participants at the last AMS as well as the feedback from the live web casting, was reviewed.

- 4- A general guideline for speakers and chairpersons was endorsed for future international media dialogues.
- 5- Last but not least, the Strategic Plan Team welcomed all member countries to consider hosting the future Asia Media Summits from 2008 onwards provided that they could offer certain support in cash and in kind to the Secretariat.

The 30th Anniversary of the Establishment of the AIBD – August 2007

AIBD will publish a special booklet to celebrate the 30th Anniversary of the Establishment of AIBD by inviting members, partners and consultants to contribute to this book. The Strategic Plan Team is also open to any new idea that may be suggested by members and partners to strengthen next year's celebration.

The 1st Regional Summit of the Heads of States on “ Information & Broadcasting ” 28 - 30 September 2009

The 1st Regional Summit of the Heads of States on “ Information & Broadcasting “ has been tentatively scheduled for 28 - 30 September 2009. The esteemed government of Thailand has been requested to host this historical conference in Bangkok. The tentative plan for the Summit would be as follows:

- Monday 28th September, Meeting for the Heads of Radio and Television Organizations in the Asia – Pacific Region
- Tuesday 29th September; the 2nd Ministerial Conference and,
- Wednesday 30th September; the 1st Conference for the Heads of States

The Strategic Plan Team will start working on the “Summit Declaration” immediately after the General Conference as this would be a time consuming practice, which requires lots of meetings and lobbying.

Restructuring the General Conference

The Strategic Plan Team reviewed the current structure of the General Conference and its Associated Meetings and recommended to reduce the duration from 4+ 1 to 3+1 days. The Strategic Plan Team is of the opinion that although squeezing all 10 sessions in 3 days will create a bit more work for the AIBD Secretariat during the Annual Conference; it will result in saving time and money for the participating organizations.

Renewal of the term for the Chairman and Vice Chairman of the SPT

The Strategic Plan Team placed confidence in Mr. Cao Yin (*Deputy-Director General, Foreign Affairs Department –SARFT and Chairman, SPT –AIBD*), by re-electing him as the Chairman.

Mr. Francis Herman (*Chief Executive Officer, Fiji Broadcasting Corporation Limited*), was also re-elected as the Vice Chairman of the Strategic Plan Team.
